

Entomology Project

From: gavirtualschool.org

<http://cms.gavirtualschool.org/Shared/Science/ForensicScience/03%20Forensic%20Evidence/index.html>

For this project you will research *2 different types* of insects that might be encountered by a forensic entomologist. You can choose to create a PowerPoint presentation to present your research or you can create a presentation using Window MovieMaker. Be sure to read the rubric so you know what elements are required for the project.

A good place to start your research would be

http://www.deathonline.net/decomposition/corpse_fauna/index.htm

CATEGORY	3	2	1	0
Title slide	Includes title of project, name of student, date, and an appropriate image.	1 element missing	2 elements missing	3 or more missing elements
History of Forensic Entomology slide	Brief history of forensic entomology including a minimum of 3 facts. Includes an appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Insect #1 slide	Identifies the common name of the insect, the binomial name (Genus and species), and includes an appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Habitat of Insect #1	Describes the normal habitat of the insect and when the insect would typically first appear at a corpse. Includes an appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements

Life cycle of Insect #1	Lists the stages of the insects' lifecycle and the time frame for each stage. Also includes 1 appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Insect #2 slide	Identifies the common name of the insect, the binomial name (Genus and species), and includes an appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Habitat of Insect #2	Describes the normal habitat of the insect and when the insect would typically first appear at a corpse. Includes an appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Life cycle of Insect #2	Lists the stages of the insects' lifecycle and the time frame for each stage. Also includes 1 appropriate image with caption and links to source(s) for info and image.	1 element missing	2 elements missing	3 or more missing elements
Spelling/Grammar	No errors	1 error	2 errors	3 or more errors
