

## Cell Cycle Notes Graphic Organizer

Complete the following graphic organizer to collect information from the Notes on the Cell Cycle. Use this while studying for quizzes and tests in this module.

| Stage of the Cell Cycle                  | Events | Time Period | Part of Cell Division? Y or N |
|--|--------|-------------|-------------------------------|
| Interphase: G1<br>(also G <sub>0</sub> ) |        |             |                               |
| Interphase: S                            |        |             |                               |
| Interphase: G2                           |        |             |                               |
| M: Mitosis                               |        |             |                               |
| Cytokinesis                              |        |             |                               |
