

Quiz 169

Write the probability as a simplified fraction.

1. A spinner with five equal sections marked 1 through 5 is spun. What is the probability of landing on an odd number?

2. A die is rolled twice. What is the probability of getting a prime number on the first roll and an odd number on the second roll?

3. A die is rolled twice. What is the probability of getting a sum equal to 7?

4. A card is randomly drawn from a standard deck of 52 cards. What is the probability of drawing a red or face card?

5. Two balls are drawn simultaneously from a bag containing 2 yellow and 4 green balls. What is the probability of drawing 2 green balls?
